# S.A. Farris

Photography

*My view as a photographer is to present your wedding with a combination of traditional shots that "tell the story;" journalistic shots that convey those precious unrehearsed moments, and to capture, as well, the beauty and character of your wedding day with the detail shots that are the final brushstrokes on the canvas of your wedding album.*

*Check out my web site at [www.safarris.com](http://www.safarris.com) to view how I "tell the story" of a bride's most important day.*
